

SmartSearch for OCS

EvangelYZe Communications' (EC) SmartSearch for OCS provides organizations with a simple tool to search for and retrieve messages archived by OCS. SmartSearch for OCS is accessible via a web browser or directly from Communicator, allowing you to deploy it as a centralized solution for compliance/litigation or as an IM search tool for end users. Integrated security ensures that only the right people have access to search the archive, preventing unauthorized users from accessing confidential or other types of sensitive information.

Easy to Use

SmartSearch for OCS is built with an intuitive interface to allow non-technical users, such as Human Resources or legal staff, to access archived information. Keywords are automatically highlighted to provide quick content review, and conversations can be exported to Microsoft Word or Microsoft Excel or saved as PDF files for legal discovery or other documentation requirements.

Pricing and Ordering

SmartSearch for OCS is available in two versions and is licensed on a per server basis. For pricing details or technical information please contact smartsearch@evangelyze.net.

Conference, Data, and Voice Reporting

In addition to instant messages, SmartSearch for OCS can provide records of Communicator VoIP and PSTN calls, peer-to-peer audio/video calls, web conferences (Live Meetings), audio/video conferences, and file transfers.

Hi Michael

michael.scott@office.com [12:23 PM]:

Did you hear about the merger rumors?

pam.beasley@office.com [12:23 PM]:

Yes, I heard about it during lunch
